## Executive Summary

This publication presents the Index of Mineral Production (IMP) covering the period 1<sup>st</sup> quarter 2019 to 4<sup>th</sup> quarter 2023. Index of Mineral Production is an economic indicator that shows relative changes in the volume of output for the mining sector over time, in relation to a given reference period.

Construction of the IMP is based on administrative data obtained from the Ministry of Mines and Mining Development. The Laspeyres Index formula was used in compilation with 2019 as the base year, in line with the United Nations' International Recommendations for the Index of Industrial Production (IRIIP), 2010.

Production of High Carbon Ferro Chrome (HCFC) is excluded from mining, hence the basket of minerals and weights used in compilation of the index were accordingly revised.

For 4<sup>th</sup> the quarter 2023, the Index of Mineral Production was **134.7**, reflecting a year-on-year percentage decrease of **9.8** compared to the index value of **149.3** recorded in 4<sup>th</sup> quarter 2022.

The quarter-on-quarter comparison shows a **6.5** percent decrease in the index from **144.1** recorded in 3<sup>rd</sup> quarter 2023 to **134.7** recorded in 4<sup>th</sup> quarter 2023. The annual indices from 1<sup>st</sup> quarter 2019 to 4<sup>th</sup> quarter 2023 have been revised.

## 1.1 Introduction

This statistical release presents quarterly Indices of Mineral Production (IMP) for the period 2019 to the 4<sup>th</sup> quarter of 2023. Also encompassed in the report are the annual

IMP for the period 2019 to 2023, derived as the average of the 4 quarters of the year. The base year is 2019 and the production is set at 100.

## 1.2 Index Compilation

Construction of the IMP is based on administrative data obtained from the Ministry of Mines and Mining Development. The Laspeyres Index formula was used in

compilation using 2019 as the base year, in line with the United Nations' International Recommendations for the Index of Industrial Production (IRIIP), 2010.

## 1.3 Summary of Findings

The index of mineral production for 4<sup>th</sup> quarter 2023 was **134.7**, reflecting a year-on-year percentage decrease of **9.8** from the 2022 4<sup>th</sup> quarter value of **149.3**. The quarter-on-quarter comparison shows a **6.5** percent

decrease in the index from **144.1** recorded in 3<sup>rd</sup> quarter 2023 to **134.7** recorded in 4<sup>th</sup> quarter 2023. Figure 1.0 shows a graphical presentation of IMP from Q1 2019 to Q4 2023.

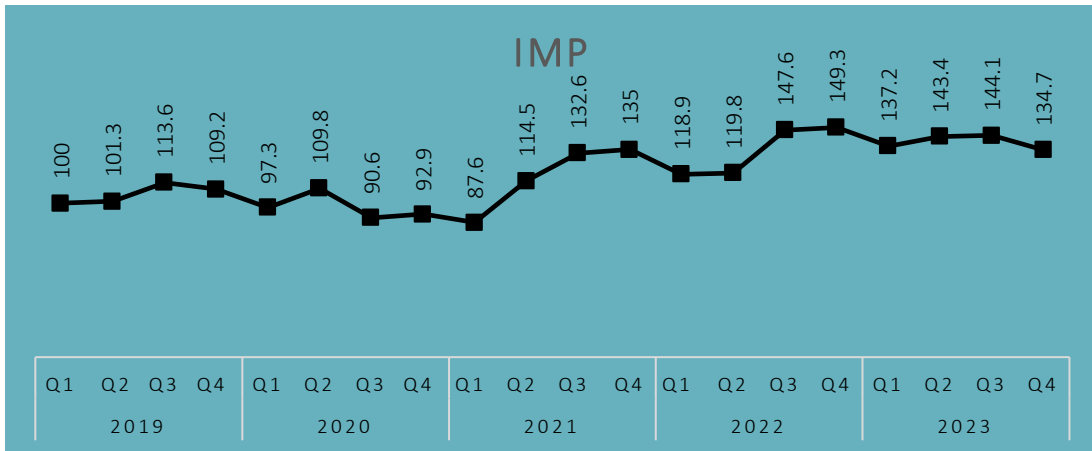

Figure 1.0: Indices of Mineral Production, 1<sup>st</sup> Quarter 2019 to 4<sup>th</sup> Quarter 2023

## 1.4 Mineral Production

### Gold

The output index for gold in 4<sup>th</sup> quarter 2023 was **117.7** compared to **127.4** recorded in 3<sup>rd</sup> quarter 2023. This reflected a **7.6** quarter on quarter percentage decrease in gold production. The year-on-year comparison shows a decrease from **145.4** recorded in 4<sup>th</sup> quarter 2022 to **117.7** in the 4<sup>th</sup> quarter of 2023. (Figure 1.1). Of the **8,198 kgs** of gold

produced in 4<sup>th</sup> quarter 2023, large scale producers, small scale producers and secondary producers contributed **34%**, **59%** and **7%** respectively.

Figure 1.1: Gold production index, 1st Quarter 2019 to 4<sup>th</sup> Quarter 2023

**Platinum**

Platinum output index for 4<sup>th</sup> quarter 2023 was **141.9**. Year-on-year index increased by **4.1** percent from the 4<sup>th</sup> quarter 2022 value of **136.3**.

The Quarter-on-quarter growth rate was **0.4 percent**. (Figure 1.2).

Figure 1.2: Platinum production index, 1st Quarter 2019 to 4<sup>th</sup> Quarter 2023

### Diamond

Diamond recorded an output index of **266.5** in the 4<sup>th</sup> quarter of 2023 compared to **331.1** in 4<sup>th</sup> quarter 2022.

Year-on-year comparison shows a **19.5** percent decrease. The quarter-on-quarter index increased by **19.8** percent from **222.4** recorded in 3<sup>rd</sup> quarter 2023 to **266.5** in 4<sup>th</sup> quarter 2023.

Quarter	Output (cts)
Q4 '23	1,229,677
Q3 '23	1,026,171
Q2 '23	1,204,805

Figure 1.3: Diamond production index, 1st Quarter 2019 to 4<sup>th</sup> Quarter 2023

### Nickel

Nickel output index for 4<sup>th</sup> quarter 2023 was **87.8**. This represent a year-on-year decrease of **5.39** percent from **92.8** in 4<sup>th</sup> quarter 2022.

Quarter-on-quarter output index had a percentage decrease of **16.4**.

Figure 1.4: Nickel production index, 1st Quarter 2019 to 4th Quarter 2023

### Copper

The 4<sup>th</sup> quarter 2023 output index for copper was **146.4**. The year-on-year index analysis shows an increase of **2.4** percent from **143** recorded in 4<sup>th</sup> quarter 2022. The quarter-on-

quarter comparison recorded a **15.2** percent decrease from **172.7** recorded in 3<sup>rd</sup> quarter 2023.

Figure 1.5: Copper production index, 1<sup>st</sup> Quarter 2019 to 4<sup>th</sup> Quarter 2023

### Coal

Coal recorded an output index of **95.4** in 4<sup>th</sup> quarter 2023. Year-on-year index comparison reflects a percentage decrease of **78.7** from **338.2** recorded in 4<sup>th</sup> quarter 2022. Quarter-on-quarter analysis shows

that the output index reduced by **70.6** percent from **325.1** recorded in 3<sup>rd</sup> quarter 2023.

Figure 1.6: Coal production index, 1st Quarter 2019 to 4<sup>th</sup> Quarter 2023

### Lithium

Lithium production index for 4<sup>th</sup> quarter 2023 was **1,990.8**. Quarter-on-quarter analysis

reflects a percentage decrease of **3.1** from **2,055.2** recorded in 3<sup>rd</sup> quarter 2023.

Figure 1.7: Lithium production index, 1st Quarter 2019 to 4<sup>th</sup> Quarter 2023

## Granite

The 4<sup>th</sup> quarter 2023 production index for granite was **193.7**, recording a year-on-year percentage increase of **50.9** compared to the 4<sup>th</sup> quarter 2022 index value of **128.4**. The

quarter-on-quarter analysis shows a **15.8** percentage decrease from **230.1** recorded in 3<sup>rd</sup> quarter 2023.

Figure 1.8: Granite Production index, 1st Quarter 2019 to 4<sup>th</sup> Quarter 2023
