## WEIGHTED CIVIL ENGINEERING MATERIALS PRICE INDEX AUGUST 2025 (APRIL=100)

### Weighted Civil Engineering Material Price Index

The Weighted Civil Engineering Material Price Index (CEMPI) was **121.10** in August 2025 and **120.97** in July 2025.

### Month-on-month Rate of Change

The month-on-month rate of change in August 2025 was **0.1** percent, shedding 0.5 percentage points on the July 2025 rate of **0.6** percent.

This means that prices as measured by the all-items Weighted Civil Engineering Material Price Index (CEMPI), increased at an average of 0.1 percent from July 2025 to August 2025.

*The month-on-month rate of change is given by the percentage change in the index of the reference month compared with the index of the previous month.*

The product that contributed to the increase in the index in August 2025 was Cement. The products that did not contribute significantly to the increase or decrease of the month-on-month rate of change were diesel, joint compound, cement concrete pipes, river sand, bitumen asbestos pipes sluice valves bitumen water stops and steel pipes.

### Year-on-Year Rate of Change

The year-on-year rate of change for the Weighted Civil Engineering Material Price Index (CEMPI) was **18.5** percent in August 2025.

This means that prices as measured by the all-items Weighted Civil Engineering Material Price Index (CEMPI), increased at an average of **18.5** percent from August 2024 to August 2025.

*The year-on-year rate of change is given by the percentage change in the index of the reference month of the current year compared with the index of the same month in the previous year.*

### Methodology

The Weighted Civil Engineering Material Price Index (CEMPI) is obtained by measuring combined price changes of goods in both the USD and ZWG aggregated geometrically.
