EXTERNAL TRADE STATISTICS
SEPTEMBER 2026

Ms. Mable Chimhore

Methodology

- The trade statistics are compiled in accordance with International Merchandise Trade Statistics **(IMTS 2010)** Manual of the United Nations.
- **FOB**: Defined as the value of the products at the border of the exporting country.
- The **FOB** value is used for the valuation of exports.
- **CIF**: Defined as the **FOB** value plus the costs for insurance and freight, thus referring to the value of the goods at the border of the importing country.
- The CIF value is used for the valuation of imports.
- For imports, **the partner country** is the country from which the goods originated..
- For exports, **the partner country** refers to the country of last known destination, that is, the final country the goods are intended to reach.
