

26 June 2021

## BLENDING CONSUMER PRICE INDEX (JULY 2020 = 100) – JUNE 2021

The month on month inflation rate in June 2021 was 4.49 percent gaining 2.69 percentage points on the May 2021 rate of 1.80 percent. **(See note on period of data collection below).**

This means that prices as measured by the all items blended CPI increased by an average rate of 4.49 percent from May 2021 to June 2021.

*The month-on-month inflation rate is given by the percentage change in the index of the relevant month of the current year compared with the index of the previous month in the current year.*

The month on month Food and Non Alcoholic Beverages inflation rate stood at 2.61 percent in June 2021, gaining 2.14 percentage points on the May 2021 rate of 0.47 percent. The month on month non-food inflation rate stood at 5.39 percent, gaining 2.94 percentage points on the May 2021 rate of 2.45 percent.

The blended CPI for the month ending June 2021 stood at 120.80 compared to 115.61 in May 2021 and 85.73 in June 2020.

The year on year inflation rate (annual percentage change) for the month of June 2021 as measured by the all items blended Consumer Price Index (CPI) stood at 40.91 percent.

This means that prices as measured by the all items blended CPI increased by an average of 40.91 percent between June 2020 and June 2021.

*The year-on-year inflation rate is given by the percentage change in the index of the relevant month of the current year compared with the index of the same month in the previous year.*

- **Period of Data Collection**

It is important to note that data on prices was collected during the period from 14 to 18 June 2021. The changes in prices in this report refer to that period of data collection.

## **The Methodology**

With effect from June 2020 ZIMSTAT is publishing the new Consumer Price Index (CPI) code named Blended Consumer Price Index. It measures the combined price changes of goods and services in both the USD and ZWL.

Two separate indices were computed, that is, the USD Consumer Price Index and the already available ZWL Consumer Price Index. The original CPI weights were split into USD and ZWL components using linking factors. These linking factors were the proportions of estimated household expenditure in USD and ZWL according to the COICOP classification. The resultant weights were then used to combine the two indices to come out with the blended index.

E-mail: [prices@zimstat.co.zw](mailto:prices@zimstat.co.zw)

## **Mean Month on Month Rates**

The mean month on month inflation rate for the period January to December 2020 was 9.6 percent. The mean month on month inflation rate for the period January to June 2021 was 2.0.

### ***Rebasing of Blended Consumer Price Index***

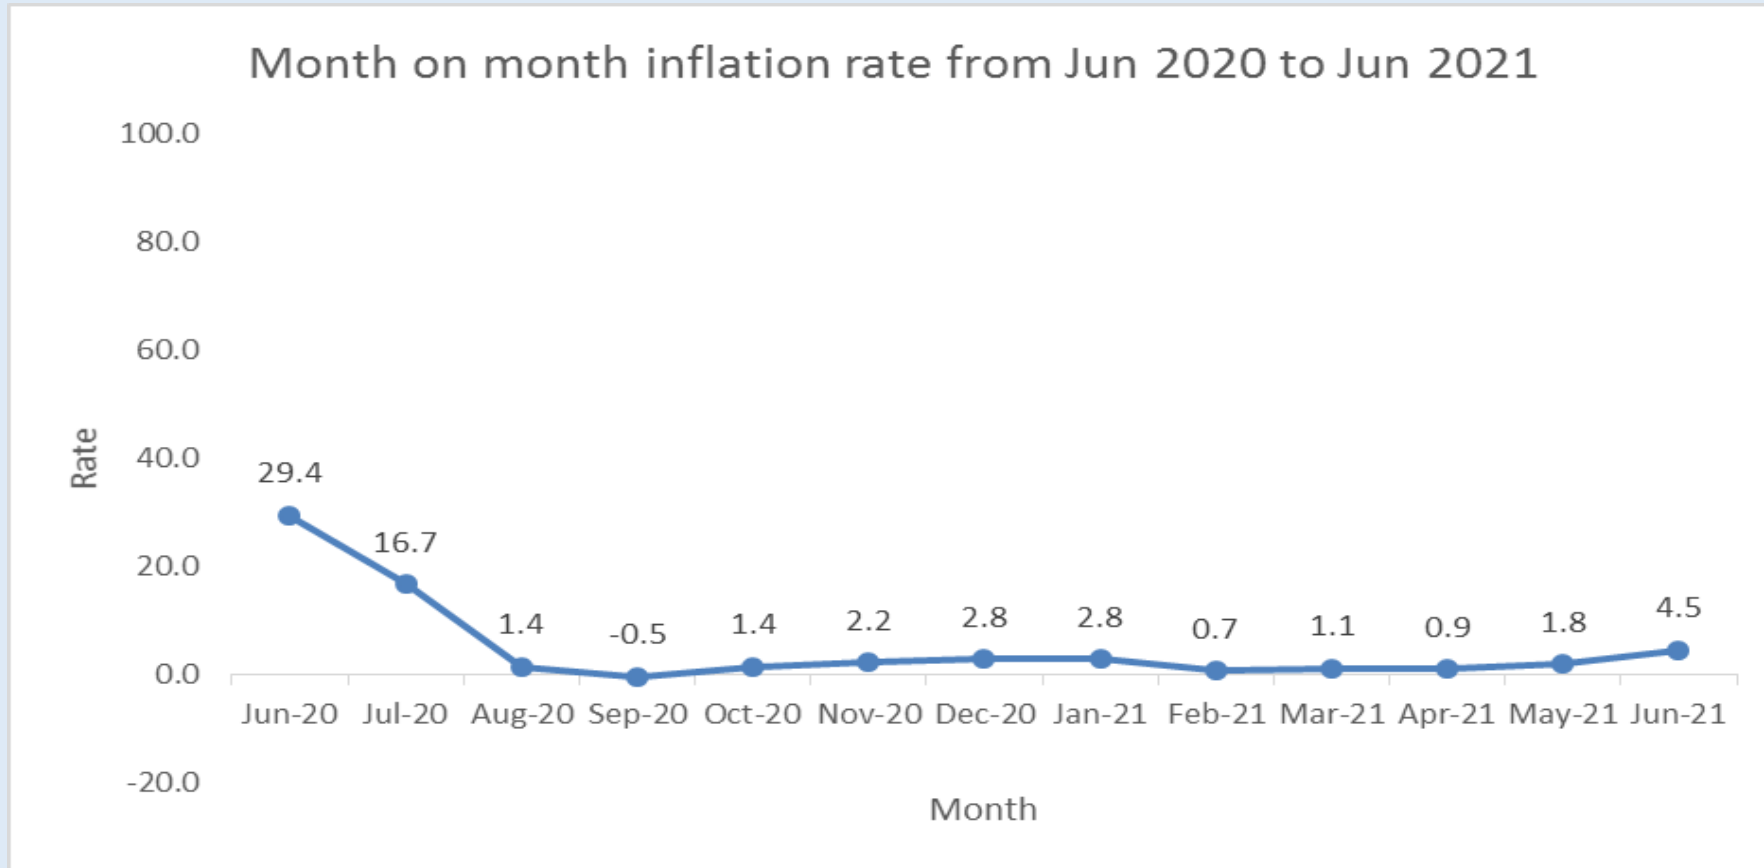

From August 2020 onwards, the blended CPI was rebased to July 2020 = 100. This was caused by the revision of the linking weights between the United States Dollar CPI and the ZWL CPI

For users who wish to continue with the old index reference period of June 2019 = 100, they should multiply the new All Items Index with the factor 6.49960354088181
