

MONTHLY SUMMARY OF EXTERNAL TRADE STATISTICS

(August 2021)

Published: November 2021

MONTHLY SUMMARY OF EXTERNAL TRADE STATISTICS AUGUST 2021

Introduction

The Zimbabwe National Statistics Agency (ZIMSTAT) produces the monthly summary of External Trade Statistics report using data on merchandise statistics from the Zimbabwe Revenue Authority (ZIMRA) and secondary statistics from companies and trade organizations. This report shows monthly exports and imports by broad economic categories such as food and beverages, industrial supplies, fuels and lubricants, capital goods, transport equipment, consumer goods and goods not elsewhere classified. It further shows main exports and imports by Harmonized System codes of trade products, destination of exports and source country of imports.

Trends in External Trade

In order to strengthen the country's export earning capacity, it is vital to look closely at export drivers. August 2021 data shows that Zimbabwe's main exports were semi manufactured gold 24.3%, nickel mattes including platinum group of minerals (PGMs) 22.3%, nickel ores and concentrates 19.0%, tobacco 10.3%, ferro-chromium 4.8% and platinum unwrought or in powder form 3.4%. It was noted that major minerals produced in the country such as nickel concentrates and nickel mattes were exported in a semi processed form, while nickel ores (including PGMs) are exported in a raw form.

Zimbabwe's major imports were mineral fuels, mineral oils product at 18.9% in August 2021 compared to 17.7% in July the same year. This was followed by machinery and mechanical appliances category, which stood at 13.1% in August 2021. Other major imports in August 2021 included pharmaceutical products including vaccines (7.3%), vehicles (6.2%), electrical machinery and equipment 4.3%, plastic products 4.0%, animal and vegetable fats (3.7%) and fertilizers (3.6%). Notably, the major imports in Zimbabwe were aggregated to reach 91.7% in August 2021. Cereal imports including maize continuously dropped from a peak of 9.1% in February 2021 to 2.4% in August 2021. There were marginal imports of maize, which declined from 1.6% in May 2021 to 0.03% in August, 2021.

Major Trading Partners

South Africa is Zimbabwe's major trading partner. The value of exports to South Africa constituted 47.2% of total exports in August 2021 compared to 51.4% in July 2021. Value of exports to United Arab Emirates was 26.1% in August 2021 compared to 32.3% in July 2021. Exports to Mozambique, constituted 7.4% in August 2021 compared to 9.2% in July 2021. During the period under review, the proportion of exports to China was 3.8% while that of Belgium was 3.3%.

The proportion of imports from South Africa were 41.9% in August 2021 compared to 38.3% in July the same year. Furthermore, in August 2021 the proportion of the value of imports from China was 13.5%, followed by Singapore 12.7%, Hong Kong 6.0%, Mozambique 3.3%, United Arab Emirates 2.3%, India 2.2, Mauritius 2.0% and United Kingdom 1.3%.

ANNEX: EXTERNAL TRADE METHODOLOGY AND COMPILATION OF STATISTICS

Source of Data

The main source of trade statistics is customs bills of entry. Whenever a good is imported or exported a customs bill of entry is completed pertaining to the nature of the good and the importation/exportation details involved. This is done for customs purposes. The Zimbabwe Revenue Authority (ZIMRA) uses the Automated System of Customs Data Administration (ASYCUDA), and the Zimbabwe National Statistics Agency (ZIMSTAT) receives soft copies of bills of entry with monthly details of data by port. This means that data capture is done by the customs department of ZIMRA. A file is received by email or collected by flash disk after the end of each month. Trade in electrical energy is external data collected from ZESA on a monthly basis and is imported into the main system using a special importation scheme based in Excel.

At ZIMSTAT the data is imported or loaded into the Eurotrace System. Eurotrace is a system specifically designed to produce trade statistics using ASYCUDA data. In Eurotrace, the data is stored and updated every month. The columns are 55 with records of a single product like Day, Office, Declaration type, Declaration number, Item number, Forwarding Agent, Trader, Customs procedure code, etc. The rows are records or entries for the month which on average are 90000.

Concepts and Scope of Trade Statistics

Domestic Exports are goods of Zimbabwean origin, include goods produced domestically and those originally imported that have undergone a process of transformation. They are valued free on board (FOB). Excluded are goods consigned to diplomatic and other official missions.

Re-exports: are goods, materials or articles originally imported which are exported either in the same conditions in which they were imported or after going through minor operations like blending, packing, bottling, cleaning or sorting.

Total Exports: The aggregate of domestic exports of Zimbabwean origin and re-exports.

Imports: Goods imported into the country directly for home consumption or use and those going into customs bonded warehouses. In addition to commercial transactions, the other items included are imports of goods for which no foreign currency was involved (NCI) such as migrant effects. Imports are valued Cost Insurance and Freight (CIF).

Coverage

- Gold bullion is excluded.
- Goods imported for repair and return are included with exports.
- Re-exports consists of the export of imported goods other than goods imported for repairs.
- Migrant's effects.

- Goods on direct transit, i.e. goods being transported or moved through Zimbabwe are excluded.
- Imports by and exports to diplomatic and other official foreign missions are excluded.
- Imports of returned exports are included in imports.
- Postal traffic is included without a commodity breakdown.
